The list above sums up all available shows broadcasted under the name "Crap From The Past" and is mostly based on the "Crap From The Past" audio-files available for download at Archive.org. This includes several fill-in shows and internet-only shows, which aired in the 90s, and it includes reruns. The Archive.org pages of "Crap From The Past" are listed at https://archive.org/details/crapfromthepast.
It doesn't include any of the bonus material available at Archive.org (like "Songs I listen to in my car" or jingle files).
Besides the files and information provided at the Archive.org-pages, the list above also uses Ron Gerber's own list of the "Crap From The Past"-episodes; the list has been made available at https://crapfromthepast.com/archives/index.htm.

***Episode #70** seems to be incomplete, so does **episode #91**.*

***Episode #364** was split into two MP3-files; as the two files cover a single episode, the listing above counts them as one episode. Both MP3-files only contain "tmp" as their ID tags, that is why there is no title listed for that episode.*

*The **episode** from **October 30th, 2020**, was a rerun; according to Crap From The Past's Facebook page (https://www.facebook.com/crapfromthepast/posts/3812529122092448), KFAI, however, "ended up airing a rerun that was the wrong episode". Thus, the Crap From The Past home page lists the week of October 30, 2020. as "No episode this week". Hence, the show isn't counted as a Crap From The Past episode, so it has no episode number, either. The MP3-file doesn't have any ID tags defined, hence there are no titles listed for the show.*

*In addition to the files available at Archive.org, two MP3-files have been taken from KFAI.org and added to the list above. One is the **broadcast** from **June 22, 2019**, which was a fill-in show for Simon Husbands' "True Brit" and was hosted by Ron Gerber and Chuck "Boing Bumm Chuck" Tomlinson; the other one is the **broadcast** from **October 30th, 2020**, as mentioned above.*
*Since the former was a mere fill-in show, it has been added to the list above, but its original broadcast doesn't count as "Crap From The Past"-episode; hence, it has no episode number. The MP3-file that is here referred to has no ID tags defined, so no titles can be listed here. However, it was finally re-run on **January 17, 2020,** which has been included to the list as a proper "Crap From The Past"-episode, listed above as **#1,258**.*

As a rule of thumb, episodes are counted as Reruns if the title of the respective episode contains the word "rerun"; if necessary, the count of Reruns is adjusted manually (for example during the Corona period in 2020).
Some of the Reruns consist of both the actual rerun episode plus an introduction or other additions to the actual rerun episode; this is mostly due to the fact that the older episodes used for the reruns were actually shorter (90 min) than the later episodes (120 min, from August 2017 on).

Episodes written in bold indicate the first episode of a year.
